**Subject: Final Depreciated Price of Generator**

Dear Sir,

This is in reference to your letter No. BP/AHRD/ADM-07/2025/224 dated 2nd April 2025 regarding your interest in purchasing the BNB generator currently stationed at your premises.

Following multiple discussions between our officials, and as communicated to your Administration Unit, we would like to reiterate that the generator's original purchase cost was Nu. 1,179,125.00, excluding installation and testing charges. Your proposed price of Nu. 350,000 is significantly below the current market value, which exceeds Nu. 500,000. Additionally, the DNP and tax valuation processes do not reflect the generator's actual functional value, given it has only been in operation for 9 years.

However, in view of the long-standing partnership and goodwill between our organizations, we are pleased to offer a final depreciated price of **Nu. 400,000.00 (Ngultrum Four Hundred Thousand only)**. We trust this is a fair and mutually beneficial offer.

Kindly let us know a convenient time for the formal handing over. If required, our technical team will be available to provide a hands-on demonstration.

We look forward to your confirmation and continued cooperation.

Yours Sincerely,

**Mr. Dorji**  
Director, Corporate Services
